

PENDALINER[®]

Thinking about a spray on coating?

Not all forms of truck bed protection are as

TOUGH and **DURABLE**

as a **Pendaliner[®] Bedliner**

Independent tests show Pendaliner[®] Bedliners outperform leading spray-on coatings

| Features | Spray-On Coatings | Pendaliner [®] Bedliner | Benefits |
|---|---------------------------|----------------------------------|---|
|  Impact Resistance | BASELINE | Up To 7X BETTER | Testing shows that 483 ft. pounds of force is required to dent sheet metal through a Pendaliner [®] Bedliner compared to 67 ft. pounds of force to dent sheet metal through the leading spray-on coating. ⁽¹⁾ |
|  Abrasion Resistance | BASELINE | Up To 4X BETTER | Testing shows it takes more than 200,000 scuff cycles to penetrate a Pendaliner [®] Bedliner compared to 43,000 scuff cycles to penetrate the leading spray-on coating, resulting in potential damage to the truck bed. ⁽¹⁾ |
|  Ultraviolet Resistant Fading | BASELINE | Up To 8X BETTER | Ultra-violet weathering tests show Pendaliner [®] Bedliners are up to 850% more resistant to ultra-violet fading than the leading spray-on coatings. ⁽²⁾ |
|  *No drill, No scuff Installation | NO | YES | Spray-on coating installation may require "scuffing" the truck bed, which removes factory corrosion resistance materials. This may affect a consumer's corrosion warranty. |
|  Lifetime Limited Warranty | LIMITED NATIONAL WARRANTY | NATIONAL WARRANTY | Pendaliner [®] Bedliners have you covered with a part replacement Lifetime Limited Warranty valid at any Pendaliner [®] retailer nationwide. |
|  100% Recyclable | NO | YES | Pendaliner [®] Bedliners are made of 100% recyclable materials. Spray-on coatings are not recyclable and may impair the ability to recycle the truck's sheet metal |

1 Testing conducted by Bjorksten Research Laboratories April 2008

2 Testing conducted by Detroit Testing Laboratory, Inc. April 2008

* For best fit, some models may utilize screws for the bedliner &/or tailgate
