

VANGUARD

PROTECTION PERFECTION™

VAN PROTECTION SOLUTIONS

LOOKING FOR MAXIMUM PROTECTION?

We've been protecting the working end of trucks for years!

Our VanGuard van protection systems add refinement to the van interior and durable protection from dents, scratches and gouges.

Helping to safeguard your investment!

COMMERCIAL GRADE PROTECTION

- Expertise in protective material selection and processing for durable solutions that provide maximum protection from dents, scratches, gouges, and chemical exposure.

PROPER FIT AND INSTALLATION

- State of the art measuring and CAD systems deliver precision solutions that are specific and tested to each van model.
- Focused on delivery of solutions that don't require modifications and provide ease of installation.

LASTING BENEFITS

- Increase useful life and resale value of vehicle.
- Protect against unexpected end-of-contract charges for excessive damage/wear.
- Improve operator comfort by reducing road noise.

WALL LINER SYSTEMS

- Constructed of solid high density polyethylene for maximum protection.
- Combats darkness and hides markings with light gray appearance.
- Helps to reduce road noise and manage climate.
- Included wall insulation with some applications.
- Easy no drill installation with some applications.

CEILING LINER SYSTEMS

- Reduces road noise and provides better temperature control.
- Soft textured, light gray appearance provides added sound proofing, climate control and interior aesthetics.
- No drill installation with most applications.

FLOOR LINER SYSTEMS

- Constructed of high density polyethylene for maximum protection.
- Skid resistant for firm footing and safety.
- Easy no drill installation delivering a strong foundation.
- Optional and durable diamond plate thresholds available for rear and curbside entry.

WHEEL HOUSE COVERS

- Constructed of solid high density polyethylene for maximum protection.
- Insulated and provided as a set.
